One Million Iron And Steel Workers May Go On Strike

Paris, Oct. 31.—A strike of over a million iron and steel workers was regarded by observers here today as a probable development in the struggle for power between the French Government and the Communists, hitherto centred on the pits and the ports.

This serious extension of the trouble was in prospect as a result of weekend developments on the eve of the fifth week of the coal strike.

RESCUE APPEAL

Nanking, Nov. 1.—The last distant echo of gunfire died in Mukden yesterday as the great Manchurian city lay in silent forboding, awaiting the entry of Communist armies.

The Chinese government continued to say officially that a "great battle" was under way in the corridor leading southwest to China proper. But the highest officials admitted privately: "It's all

Radio communication with Mukden continued until 5.30 p.m. yesterday. The last message told of the gradual fading of sounds of battle from the outskirts followed by "deathlike silence." It said most of Mukden's 2,000,000 residents stayed indoors, fearful of street violence which did not materialise.

Half an hour earlier the U.S. Consul-General, Mr Angus Ward, still in Mukden with 10 other Americans, reported: "There are no disorders and the sound of gunfire has not been audible since 6 a.m. this morning (Sunday morning)."

INSTALMENT 20

THERE was no visible muzzle on me when I L was taken that afternoon of Saturday, August 7, to face a group of reporters representing the New York press, yet I was gagged just as effectively as if I had worn one.

The stage was set for a mock interview, in free America, on the order of the show trials put on in Moscow during the Great Purge. The stage manager and his assistant were Consul-General Lomakin and Vice-Consul Chepurnykh. Serving as a backdrop for the net was a small contingent of picked Consular aides lined up against the wall in the rear. In my eyes their advance stagement them as being NKVD veterans. their visages stamped them as being NKVD veterans.

I was so fagged out when they led me into the room that I was afraid I would get dizzy and fall off the straight-backed chair offered to me. So I asked

Chepurnykh to let me sit on a sofa. That not a single representative of the press present at the interview spoke Russian was, I am convinced, not due to any pre-arrangement. The effect,

however, was to deliver me wholly into the hands of my puppeteers. It enabled them to frame the case according to their fantastic scheme and to present the fabrication to the world and to the American Government as the truth.

The conversation with the reporters being carried on in English, 1 barely understood that was going on. And I felt so humiliated at the role assigned to me, that I could not look. squarely at the newspaper people.

SATURDAY'S LEAGUE CRICKET

ANOTHER DOCTOR HAS A MERRY TIME WITH THE SCORPIONS

By "RECORDER"

The HKCC Scorpions, who played their only home game in the League as the Nomads, failed by just 14 runs against Club de Recreio at King's Park on Saturday and completed the second week of the league season with a duck in the points column.

Still lacking the necessary balance for victory, the Scorpions were a much better team than they had been the week before. It was their misfortune to run up against another doctor on holiday-Dr E. L. Gosano this timewho knocked up a fine personal contribution of 79 to a surprisingly low Recreio total of 130, including in his oneman stand 12 boundaries on a ground where the ball has to travel far for a four.

The only butting sting the Scorpions turned up was from Frank Howarth who faced with confidence the medium-to-fast Pereira the near-perfect throughout the afternoon of Dr Gosano, who gave away 28 runs in

15 overs. Howarth's undefeated 57 was helped on largely by the fact that the field was badly placed for him. He was more confident against Pereira and picked up one boundary and an occasional single off Dr

He gave one life, fairly early on, to L. Guterres at square leg. It was not an easy catch, necessitating a sudden wheel-about and a run and Guterres mistimed it; the ball splitting his finger to the bone. L. F. Stokes was contributed to the Recreio field, no 12th man having been nominated.

The optimism in that belief can be appreciated when one recalls that the coal-steel section produced far more than its share of notable middleweights.

They included Harry Greb, Frank Klaus, George Chip, Teddy Yarosz. Billy Conn. Buck Crouse, Al Grayber, Jimmy Perry and Billy Berger. Some of those lads also distingulshed themselves later as light heavyweights; but they climbed to fame as middies.

Comic Court, a South Australian colt, won by two and a half lengths from Foxzami, 12 to one, in two minutes and 351/4 seconds, with Carbon Copy, 7 to four, one of the joint favourites, another one and a half lengths away, in third place after a photo finish, with Clement. All carried eight stone and ten pounds.

Previously, grey toppers, purchased by many in readiness for the Royal visit, were damaged by the rain, which made the going very heavy. Comic Court was first away of the 12 starters but Royal Andrew soon took up the running from Foxzami, Comic Court and Pholbos,

REMEMBRANCE

Remembrance Day is dedicated to those in the Services who fought so gallantly and endured so much between 1914/18 and 1939/45. It is also an occasion when Britons in distant parts of the Empire and foreign lands turn their thoughts to the Mother Country and feet that they share that great tradition which she has created and so eplandidly maintained throughout the conturies.

It is now more necessary than ever before to secure your generrous support for Earl Halg's Fund for the Disabled of the two World Wars. Their need is great, and the Committee of the British Legion feel that you would wish to be prominently identified in the endeayour to alleviate the distress of so noble a band of physical sufferers.

Psychic Bidding Sets Contract Five Tricks

BY WILLIAM E. McKENNEY

THE Southern Appalachian tournament, which was held at the George Vanderbilt Hotel in Asheville, N.C., established new attendance records. I saw Mr and Mrs Murry Gross of Asheville in New York recently, and I asked Mrs Gross it Murry had given up psychic bidding. The best unswer to that, she said, was today's hand. He not only continues to use them himself, but he has his partner doing it, too.

Murry held the East cards. His partner's bid of two clubs was purely a psychic. North's bid of two diamonds was honest. Murry knew that his partner did not have a twoclub bld, and he felt quite sure that West had spades. Just to carry the deception along, he bid two spades. With the spade suit well stopped, South promptly bid two no trump. and North, who had a six-card

diamond suit for his partner, could not be criticised for going to three

no trump. There would be nothing to the story if West had opened his fourth best of his longest and strongest suit, but he did not. He knew that Murry's bid of two spades must be psychic, because South had gone to two no trump. Therefore, West decided that Murry probably had the clubs, and opened the club ten.

South held up for one round, but had to win the second club trick. Then he decided to stake everything on the diamond finesse. After all, it was West who had bld the clubs. But the finesse lost to Murry's king, and he proceeded to cash his five remaining clubs, then led the eight of spades. Thus his partner was

able to get in two spade tricks. Murry and his partner cashed six clubs, a diamond and two spades. Instead of declarer taking nine tricks, his opponents took them, setting the contract five tricks. And this, says Mrs Gross, is the reason why Murry will never be cured of psychic bidding.

the inclusion of more luxury goods in the British import quota; they hope that the latest readjusted exchange rate will help.—United Press.

INDIA PLACES HUGE ORDERS IN CANADA

Ottawa, Oct. 30.—Orders totalling \$55,000,000 have been placed in Canada by the Government of India so far this year, according to

Palt, who is on a "goodwill" visit to Canada to discuss trade relations between the two Dominions, told a press conference that about half of the total amount of money which India invested in Canadian orders is for wheat shipments. The second second

He explained that his country was principally interested in building up the standard of living of its population, and that the bulk of its Business on the Stock Exchange future orders would be for food He said: "We are concentrating on importing agricultural machinery SHARES BUYERS SELLERS SALES and locomotives from Canada. Our transportation system has been rulned by war and, with famine often threatening certain parts of India, we must have an effective railway system to maintain the economy of the whole country." He said that Indian orders for Canada, besides wheat, consisted principally of locomotives, freight cars, trainer aircraft, agricultural implements and fertilisers.

He expressed the hope that Canada and India would be able to exchange skilled workers. He indicated that the more industrial India becomes, the more she will import from Canada. He said: "Conadian industrialists have shown a wonderful spirit of co-operation with the Indian firms. I think there is a great trading future between our two countries."-United Press.

Stafford Adheres To Statement

Bristol, Oct. 31 .- The Chancellor of the Exchequer, Sir Stafford Cripps, tonight adhered to a statement he made in 1935 that it was essential to Socialism that the British Empire should be "liquidated."

Asked by a questioner whether he still stands by this statement, Sir Stafford replied: "Certainly. And that is what we have done, in the lease of India, Pakistan, Burma and Ceylon."

The Chancellor, who was addressing a meeting in his own constituency (East Bristol) said:

"One of the weaknesses of the world today from the point view of the peace of the world the weakness of some of the countries of Western Europe."

Shanghai Hopes For More Food

But It's Likely To Be Costly

Shanghai, Nov. 1.—Hungry Shanghailanders this morning expectantly awaited the reaction of the local traders to the Chinese Government's action last night in unfreezing the August 19 price ceilings, and

It is generally predicted that goods and daily necessities would be available in sufficient quantities commencing today as a result of Government's dramatic move-but at new prices.

As early as last night-only a few hours after the lifting of the ceilings became known - large quantities of meat and vegetables had reappeared while this morning all policemen and investigators ussigned to markets during the past months to check on the enforcement of ceiling prices were withdrawn. In response to popular demand. the Government, through the Executive Yunn, last night decreed:

OPEN MARKET PRICES "Firstly, foodstuffs shall be bought and sold at open market prices and there shall be no restriction in their transportation and distribution. Hoarders and speculators shall be severely punished in accordance

with the regulations governing food "Secondly, the existing food rationing programme in the six major cities shall be continued by the Government.
